

Name _____

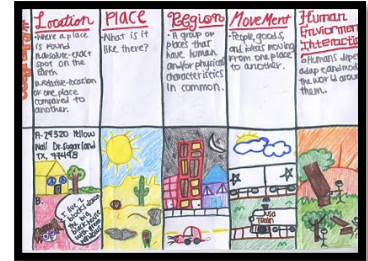

Block _____

5 Themes of Geography

PROJECT #1

Show that you understand our lesson by making a Penta-fold info sheet describing the Five Themes of Geography!

Fold a sheet of paper vertically, then fold or mark off 5 times so that you have 10 rectangular sections (see photo). Each section should define one of the Five Themes. Give each theme its title, the definition of the theme, an example of the theme, and below that draw a picture that represents or shows examples of the theme.
